CSP | CONTRACT SAFETY PROFESSIONALS

Capability Statement

Embedded safety leadership for complex construction and industrial projects across the United States.

Core capabilities

Safety Staffing

Short- and long-term field coverage for EHS, process safety, environmental compliance, and emergency response.

Safety Consulting

EHS audits, incident investigations, program development, and semiconductor fab protocol and monitoring support.

Direct Hire Recruiting

Permanent EHS and construction safety placements matched to your technical requirements and site conditions.

In-Person Training

OSHA 10- and 30-hour Outreach training for construction and general industry, plus site-specific safety training.

Relevant project experience

Semiconductor | Boise, ID, Clay, NY, Manassas, VA

Safety, Environmental, PSM and ERT support for semiconductor project work.

Data Center | Dallas-Fort Worth, TX, San Antonio, TX, Wilmer, TX, Freestone, TX

Field safety consulting at data center construction sites.

Other sectors include power generation, construction, manufacturing, and mining.

How we staff projects

Candidate screening

We verify credentials and training, then use our TEAM method to assess technical competence, relevant experience, attitude and judgment, and mentorship.

Site and contract requirements

We plan coverage around union and non-union sites, workers' compensation, OCIP/CCIP, and client requirements.
